

**A Global Leader in
Visual Display and Presentation Products**

Visual Display and Presentation Products for Business, Education, Large Venue and Home Cinema

About Vivitek

Vivitek - a global leader in visual display and presentation products

Vivitek is a leading brand of award-winning digital projectors and presentation accessories, with an extensive line-up of projectors for home cinema, education, large venue and meeting rooms. Vivitek was the first to launch a full high-definition LED home cinema projector, as well as among the first to offer the compact and powerful HD LED Qumi projectors, as well as 3D-ready digital projectors featuring DLP link® from Texas Instruments.

Vivitek is a brand of Delta Electronics, a world-renowned provider of innovative, responsible and energy-efficient products and solutions with headquarters in Taiwan. All Vivitek products have an ecology-conscious design and are manufactured in factories that implement sustainability principles. The company is committed to delivering high-quality products that meet customer demand both now and in the future.

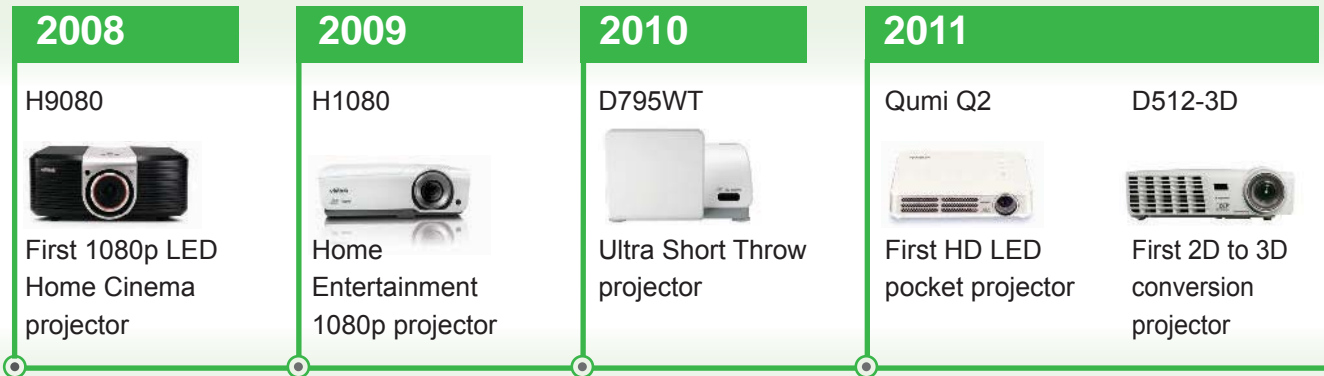

In recent years, Delta Electronics has transformed itself from component manufacturer to a solution provider and has its main activities in power electronics, energy management as well as industrial automation systems and automotive electronics. Delta's brand promise "Smarter. Greener. Together." encourages the development and the availability of a broad range of products and applications of smart, energy-efficient solutions. Delta's vast engineering know-how is behind Vivitek and supports its objective to position itself as a global technology leader in the projector business and accessories.

Vivitek has global sales and marketing operations in North America, Europe and Asia with R&D capabilities in Taiwan. Products are sold worldwide through authorised distributors, system integrators, resellers, retailers and e-tailers.

Vivitek Product Range

Years of successful product and technology innovations.

Product Strategy

Vivitek continuously develops and offers innovative, high quality products for a variety of user needs in business, education, home and personal entertainment. Vivitek's product strategy involves development beyond core projector technology to provide 'smarter' integrated products and solutions with high efficiency.

2012

D8800

High brightness large venue projector

D5185HD

1080p with build-in edge-blending

2013

D7180HD

Market leader in Full-HD extreme short throw

2014

DH758USTiR

First 1080p Ultra-Short Throw Projector

NovoConnect

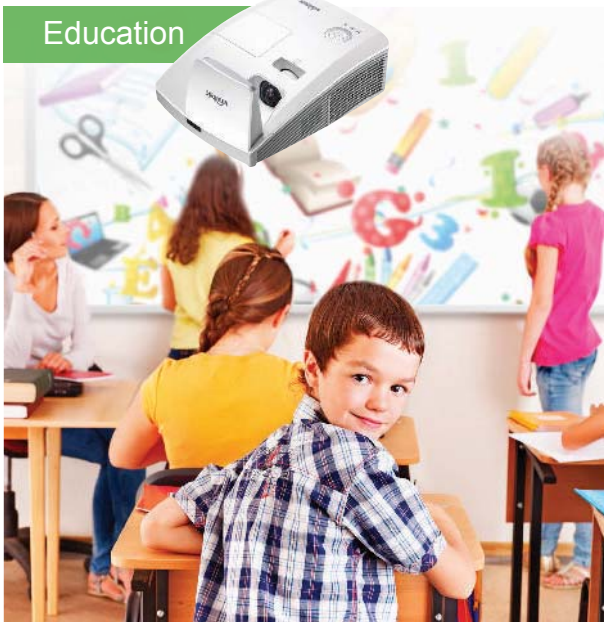

A Wireless Presentation and Collaboration System

2015

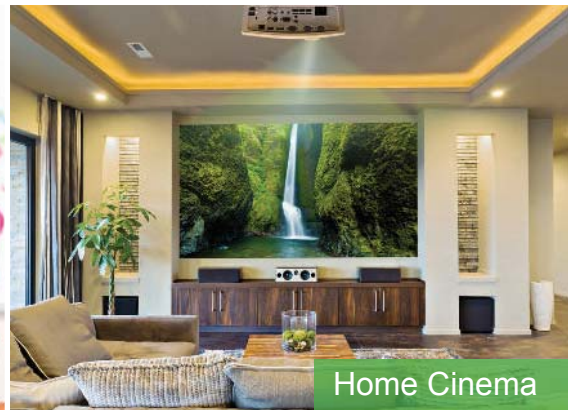

DU9000

Large Venue Projector > 10,000 Lumen

Business

Vivitek Commitment

Vivitek is committed to develop and bring innovative, high quality products to the market. Vivitek aims for the utmost level of satisfaction and a new integrated visual digital experience.

Extensive R&D capabilities

- Experts in the development and production of reliable projection display technologies
- Fast product development cycles

Strategic partner alliances

- Strategic alliances with key vendors guaranteeing stable supplies, optimum pricing and early access to new technologies
- Sophisticated vertical integration process to control costs and guarantee quality

Environmentally friendly

- From ecology-conscious design and manufacturing “green” projection products, Vivitek believes in the active responsibility in both its manufacturing and business processes and programs. Lead-free soldering on all parts, including circuit component electronics
- No halogenated flame-retardants in the cabinet
- Lead-free glass for lenses
- Recycled paper and minimal paper products for user’s manuals and packing cartons
- Intelligent cooling systems to prevent excess power consumption

Broad product range

- Comprehensive product mix for business, education, large venue and home cinema
- 16 projector lines with close to 50 models

Multi-channel network

- Vivitek addresses various channels, suitable for the sale and support of all products
- Vivitek brand is perceived as a premium projection brand in the distribution channel

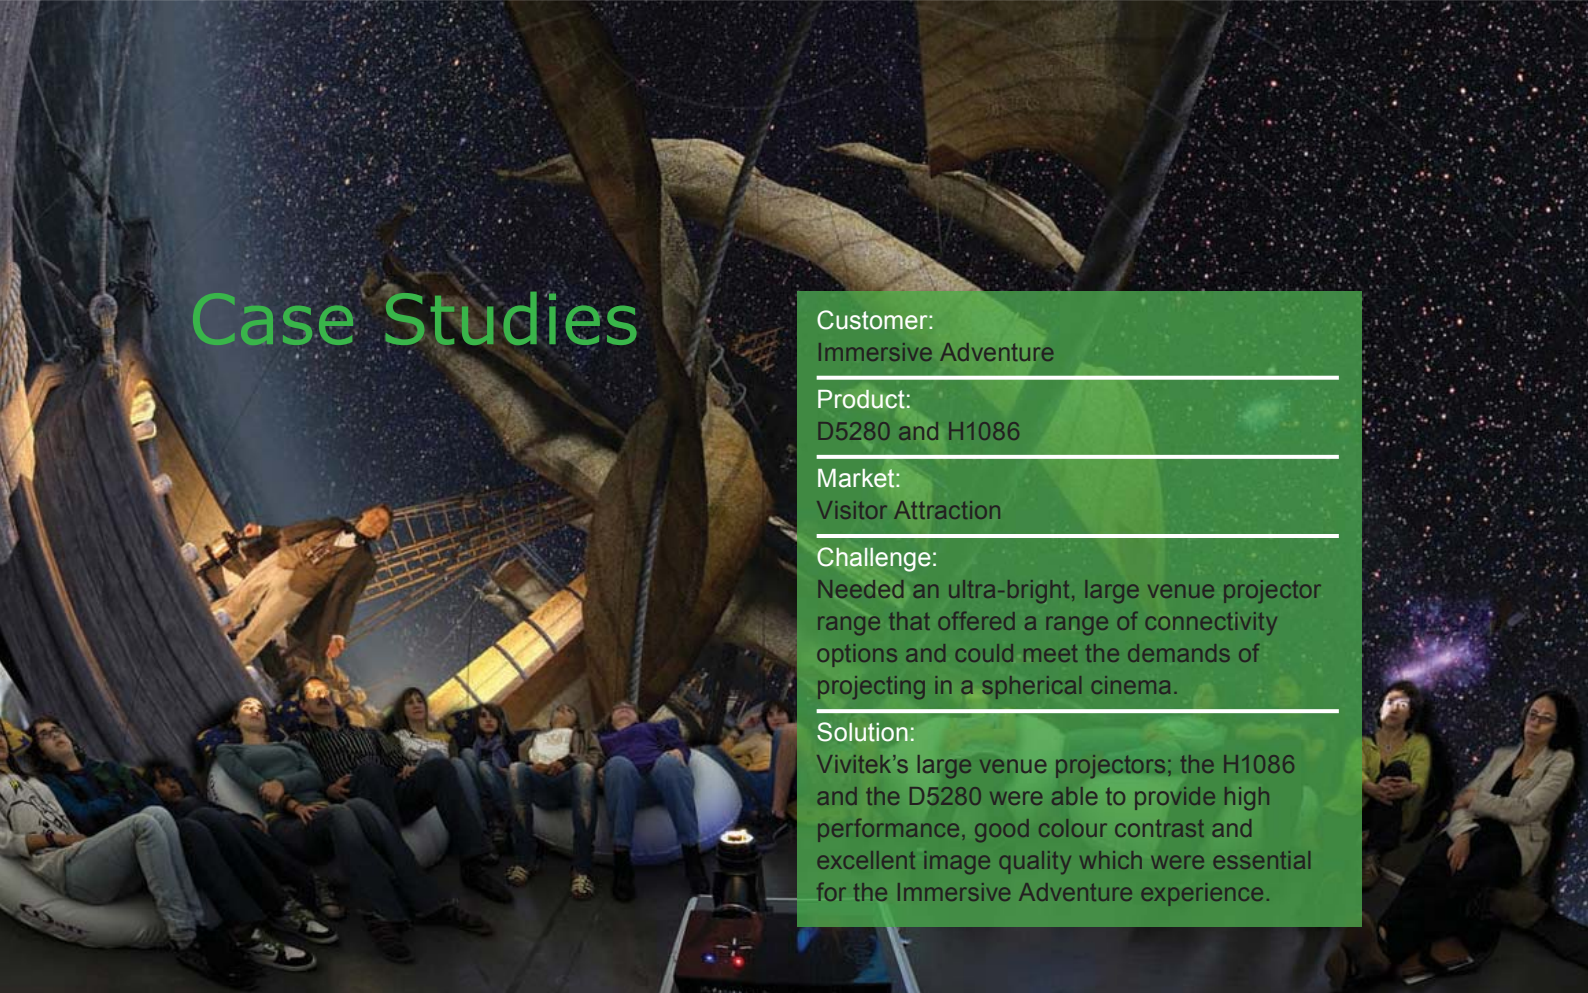

Manufacturing

With highest care and optimised factory processes

- Thorough testing, burn-in stress test, and tests again for best quality control
- Total Quality Management thanks to high Vertical integration with majority of components manufactured internally at Delta (passive components, magnetic components, power supply, fans, PCB Assemblies, mechanical components, glass-filters, Colour-Wheels, servo-motors, lenses)
- Stringent manufacturing procedures and policies
- ISO 9001, ISO 14001 and OHSAS 18001 approved manufacturing sites

Case Studies

Customer:
Immersive Adventure

Product:
D5280 and H1086

Market:
Visitor Attraction

Challenge:
Needed an ultra-bright, large venue projector range that offered a range of connectivity options and could meet the demands of projecting in a spherical cinema.

Solution:
Vivitek's large venue projectors; the H1086 and the D5280 were able to provide high performance, good colour contrast and excellent image quality which were essential for the Immersive Adventure experience.

Customer:
SHOW Studio Gallery

Product:
D5000

Market:
Fashion Exhibition

Challenge:
SHOWstudio needed the installation to be as immersive as possible, allowing the users to really experience the space. To make this possible short throw projectors were required to cover as much of the wall space as possible.

Solution:
The Vivitek D5000 projectors provided SHOWStudio with a bright and high resolution image. As the room was square and they were projecting onto three walls, they also found the lens tilt and flexible keystoneing very useful.

Customer:
Gideon Koppel

Product:
D8800

Market:
Large Venue

Challenge:
To find a way to project a 12 metre long and 4 metre high image, with a throw distance of 10 metres, and maintain maximum picture quality in a white gallery space.

Solution:
A Vivitek D8800 with a short throw zoom lens, creating a seamless 3:1 aspect ratio image and retaining the high resolution of the original material.

Customer:
York Museum, UK

Product:
Qumi Q5 HD pocket projector

Market:
Museums/Visitor attractions

Challenge:
To project images in the prison cells of the York Museum, the installation had to be discrete, yet the images to be of high contrast, bright and be capable to run many hours each day.

Solution:
The Qumi HD pocket LED projector provided all of these requirements with its 30,000 hours lifetime on the lightsource, 500 ANSI Lumens and 10,000:1 contrast ratio.

Customer:
Slidemia SL

Product:
D5110W

Market:
Live Event / Art Installation

Challenge:
To find a projector that could deliver vibrant edge-blended images in an exterior environment, while adding drama and excitement

Solution:
Slidemia SL have created an installation of eight Vivitek D5110W which display specially created content in this unique, external environment.

Customer:
Media Direct Srl

Product:
NovoConnect / D755WTIR

Market:
Education

Challenge:
To empower students with new technology and enable them to be full participants in research work.

Solution:
NovoConnect has powered BYOD to enable students to participate in lessons, share content and collaborate, from their tablets and smartphones.

About Delta Group

Corporate Mission

To provide innovative, clean, and energy-efficient solutions for a better tomorrow.

Vivitek is a brand of Delta. Delta was founded in 1971 and has been the global leader in switching power supply solutions since 2002 and DC brushless fans since 2006.

Delta offers the most energy efficient power products in the industry, including switching power supplies with efficiency over 90%, telecom power up to 97.5%, and PV inverters up to 98.7% efficiency. We have also developed the world's first server power supply certified as 80 Plus Titanium with over 96% efficiency. We invest 5% to 6% of our annual sales revenues in R&D and have worldwide R&D facilities in Taiwan, China, Europe, India, Japan, Singapore, Thailand, and the U.S.

Delta is a frequent recipient of international awards and other recognition for innovation,

design, and corporate social responsibility.

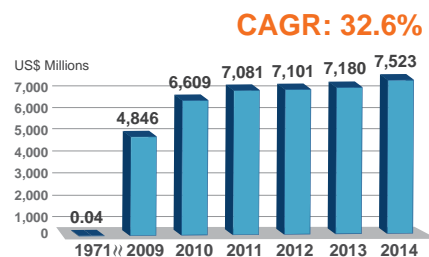

Since 2011, Delta has been selected each year for the prestigious Dow Jones Sustainability™ World Index (DJSI World). In 2014 we were also included in the DJSI Emerging Markets Index and ranked first in five criteria among worldleading Electronic Equipment, Instrument and Component Companies.

Delta was ranked at the highest A-level of the Climate Performance Leadership Index (CPLI) of the 2014 Carbon Disclosure Project (CDP). We were the only company from Greater China to be named to the CPLI from nearly 2,000 listed companies. Delta continues its dedication to developing technologies and solutions that aim to reduce global warming and ensure a sustainable future for mankind.

Worldwide Revenues

Delta continues to deliver strong and stable financial performance, achieving a compound annual growth rate of 32.6% since 1971. Delta's consolidated worldwide sales revenue in 2014 was US\$7.523 billion.

Milestones

1971

- Delta Electronics, Inc. established

1983

- Mass production of switching power supplies

1988

- Listed on the Taiwan Stock Exchange (code: 2308)
- Mass production of DC brushless fans

1992

- Inauguration of the first plant (Dongguan) in China

2003

- Acquired ASCOM Energy Systems, an organization with expertise in power supplies and a history of over 100 years

2006

- Inaugurated Delta's Tainan Plant, the first green building in Taiwan certified for all nine indices of Taiwan's EEWH rating system (EEWH Diamond)

2007

- Honored with Forbes Asia's Fabulous 50 Award
- Developed the world's first company-wide Green Map with recognition from Green Map System

2008

- Listed as a Global Top 100 Low-Carbon Pioneer by CNBC European Business Magazine

2011

- Inaugurated Shanghai R&D and Operations Center Building in China (LEED Gold)
- Inaugurated Delta Taoyuan Technology Center, Taiwan (LEED/ EEWH Gold)

2012

- Received Taiwan's National Industry Innovation Award

2014

- Named as a Taiwan Top 20 Global Brand for the 4th consecutive year (2011-2014)
- Selected for Dow Jones Sustainability™ World Index (DJSI World) for the 4th consecutive year
- Taipei headquarters received a Taiwan Green Building Certificate for building renovation (EEWH-RN Diamond)
- Named to the Climate Performance Leadership Index (CPLI) of the 2014 Carbon Disclosure Project (CDP)

Corporate Culture

Strive for change, and pursue sustainability.

Innovation

Create new ideas and take them to success effectively.

Quality

Consistently deliver superior performance and pursue improvement all the time.

Agility

Identify emerging trends and act quickly to capture new opportunities.

Teamwork

Fully leverage global value networks and collaborate to achieve mutual goals.

Customer Satisfaction

Anticipate customer needs and exceed expectations.

Corporate Social Responsibility

Delta's corporate social responsibility is about giving back to society, protecting the environment, and saving energy.

Delta is continuously improving the energy efficiency of our products. In Shanghai, Dongguan, and Wujiang, we have CNAS (China National Accreditation Service for Conformity Assessment) accredited laboratories to help our customers deliver eco-friendly products. In 2003, SONY recognized Delta with its first "Green Partner" certificate given to an overseas company. We have helped our customers save nearly 14.8 billion kWh of electricity and have reduced carbon emissions by about 7.9 million tons of CO₂e from 2010 to 2014.

Delta employs energy management in the daily

operations of our sites around the world. Delta provided the world's first company-wide Green Map with recognition from Green Map System in 2007. In 2011, Delta's Dongguan plant in China became the first power and components electronics enterprise in the world to officially pass ISO 50001 Energy Management System conformity evaluation and also obtain China's energy management standard certification in 2014. Our Thailand plant was also the first in that country to pass ISO 50001 certification in 2011. Delta's electricity intensity (electricity consumption per unit of output value) has dropped by 50% since 2009 with the implementation of our energy-saving solutions and the efforts of employees at our global sites.

Brand Promise

Smarter. Greener. Together.

At Delta, we commit ourselves to the advancement of power and electronics technology to provide “smarter” products with high efficiency. It helps us make possible a “greener” and more environment-friendly way of life. We collaborate with our partners, by listening to their needs, and accomplishing our mission “together”.

Business Categories

Power Electronics

- Embedded Power Supplies
- Mobile Power Supplies
- Industrial & Medical Power Supplies
- Fans & Thermal Management
- Electronic Components for ICT Equipment

Delta offers a comprehensive selection of high-efficiency power supplies, thermal management and electronic components and systems for use in portable devices, cloud computing equipment, home appliances and medical device applications.

Energy Management

- Industrial Automation
- Telecom Power Systems
- UPS & Datacenter Infrastructure
- Automotive Electronics & EV Charging
- Renewable Energy

Delta is a world-leading provider of telecom power, uninterruptible power systems, datacenter infrastructure, automotive electronics, EV charging solutions, and renewable energy applications. We are also one of the world's

Smart Green Life

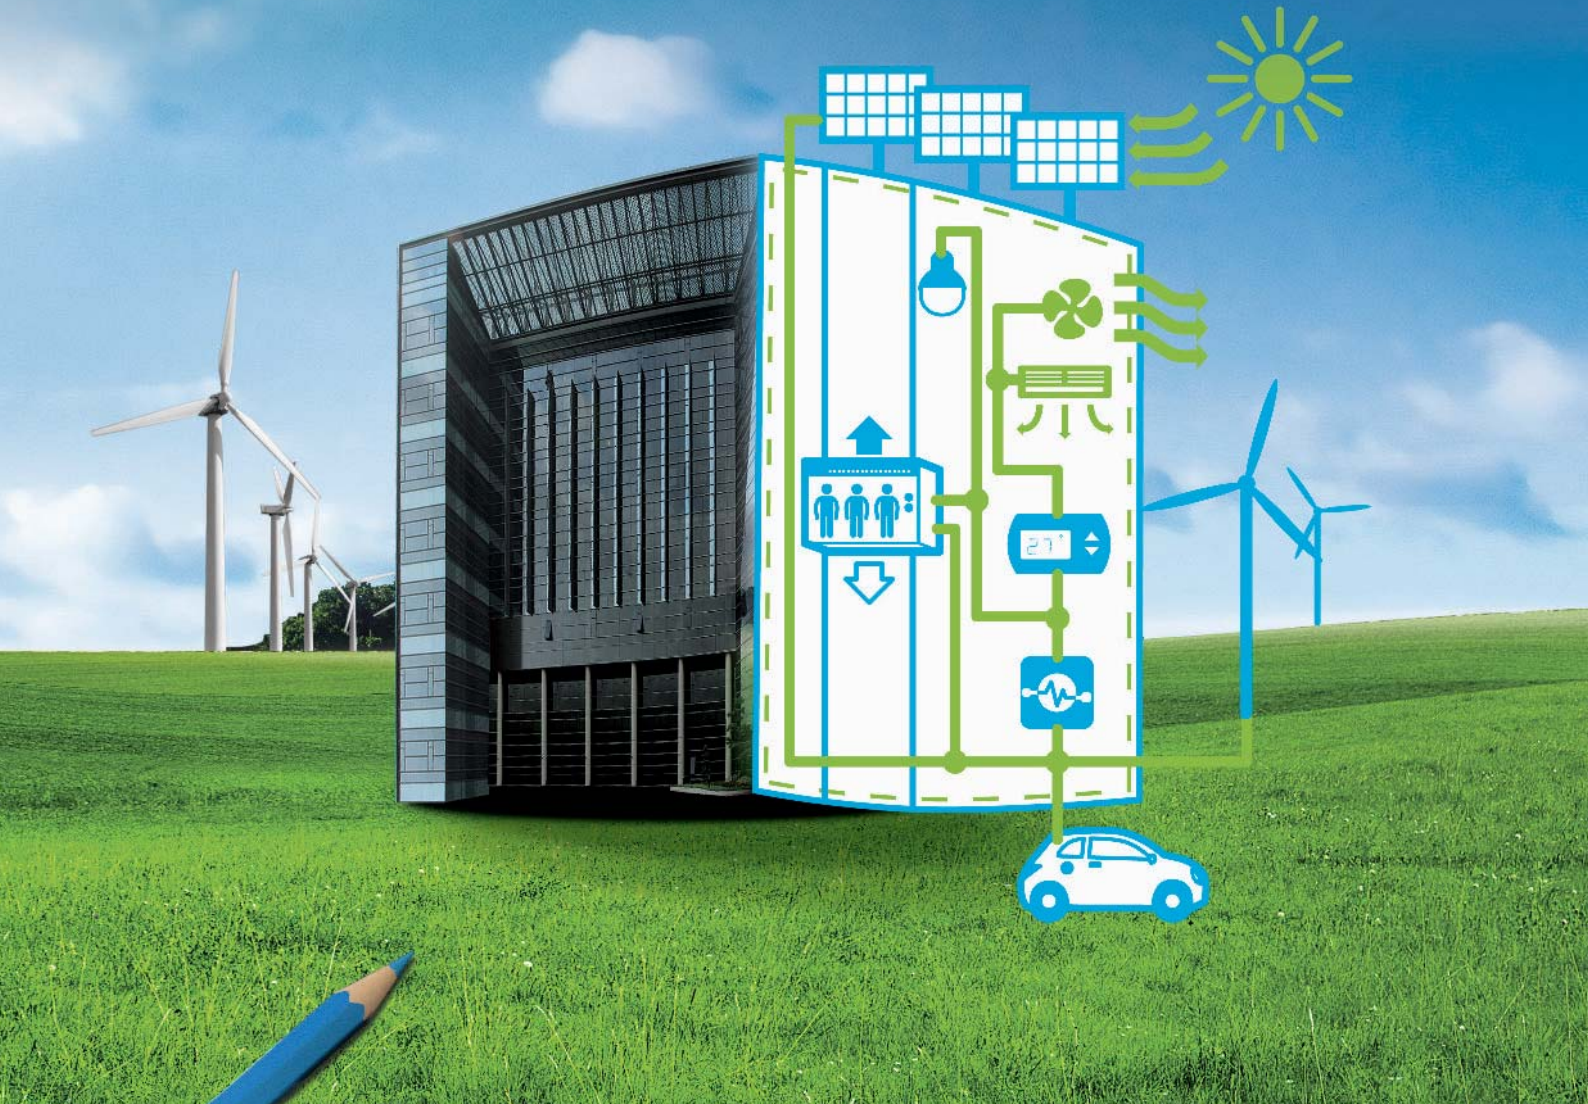

- Networking Systems
- Display & Visualization
- LED Lighting
- Healthcare Devices
- Innergie
- vivitek

Delta designs and manufactures high-end networking equipment for consumers and businesses in various applications. Delta is also a pioneer in visual displays for large venues, businesses, home entertainment, education, and control rooms.

Innergie and Vivitek, both brands of Delta, offer an extensive range of cutting-edge consumer electronics that provide a smart, green lifestyle.

Green Solutions

Delta provides integrated energy-saving solutions to build a better world for future generations.

Delta integrates technologies and products, matching software with hardware, to create smart, green, and cost-saving solutions. Understanding customer needs and offering the core technology to meet them, Delta delivers total integrated solutions that help customers increase productivity and competitiveness all over the world. Our major solutions include:

- Industrial Automation Solutions
- Building Automation Solutions
- Datacenter Solutions
- Telecom Network Energy Solutions
- Renewable Energy Solutions
- Display and Monitoring Solutions
- EV Charging Solutions

Display and Monitoring Solutions

Delta integrates and customizes displays and interactive technologies for large exhibitions, tradeshows and command/control room environments. Delta offers a wide array of display technologies including: rear projection DLP video cubes, super thin-bezel LCD screens, highresolution indoor/outdoor LED displays, high-resolution projection and, our DVCS (Distributive Vision Control Systems).

Delta's industry-grade Intelligent Process & Management System (iPEMS), integrates various IoT technologies and DVCS to provide a unique solution for Big Data visualization.
